

7th International Conference on

Driver Distraction and Inattention

Disconnected Drivers during manual, assisted, and autonomous modes

Lyon, France 12-14 October 2020

The International Conference on Driver Distraction and Inattention is the premiere international event on this topic, attracting delegates from more than 20 countries. It is designed to bring participants – from academia, industry and government – up-to-date on current and recent developments and trends in the field of inattention and distraction in driving.

The Scientific Committee welcomes abstracts for presentations, papers or posters from all stakeholder groups (researchers, designers, engineers, policy makers, transport companies, etc.), from all modes of transport (land, air and sea) and from any relevant discipline including, but not limited to, human factors, ergonomics, psychology, neuroscience, medicine, epidemiology, engineering and technology, law and politics, etc.

We look forward to receiving extended abstracts from a good mix of academics and practitioners!
